

Dear Parents/Guardians,

We're pleased to let you know that EduPharma will soon be visiting your child's school to administer the LAIV Nasal Flu Vaccine, completely free of charge. This programme is fully HSE-funded.

Flu is a highly infectious illness, and unfortunately, children can often suffer more serious complications than adults. In Ireland over the past 10 years, 5,000 children have been hospitalised with flu, 200 have been admitted to ICU, and tragically, over 40 children have lost their lives to it. But there's good news – the flu vaccine is a free, easy and effective way to protect your child.

Follow the link below to register your child today:

Why Register for the Nasal Flu Vaccine?

It's painless – just a quick spray into the nose, with no need for needles.

It's safe and well-tested – the vaccine is recommended by the Department of Health and is used widely across Ireland.

It's free of charge for all children aged 2-17.

The vaccine helps to prevent flu, protecting your child and reducing the risk of the virus spreading to vulnerable family members, such as elderly relatives.

Follow the link below to register your child today:
