

SCOIL PÓL ERASMUS+

Career Professional Development

- Attending and observing classes resulted in the development and acquisition of new Teaching Methodologies.
- Greatly encouraged reflective practice.
- Improved collegiality.
- Deepened cultural awareness and understanding of varying curriculums within the EU.

Observations made/ Main takeaways from Job Shadowing in Spain

- 5 minute break between classes seemed beneficial to all members of the school community.
- SPHE/CSPE isn't a part of the Spanish curriculum and SNA provision is less populated.
- Our access to and knowledge of technology is something to be proud of.

MFL Teachers

- This experience combined developments in personal language proficiency and pedagogical knowledge simultaneously.
- Shared and acquired useful resources for language teaching as well as unseen digital tools, both of which benefitting individual teachers and the department as a whole.

Job Shadowing

- Beneficial to non-MFL teachers too.
- Brings a deeply enjoyable learning experience to Career Professional Development.
- For more information, contact our Erasmus+ co-ordinators Ann Marie Fogarty & Anthony Punch.
